

SHORT REPORT TO COTTENHAM PARISH COUNCIL BY NIGEL BOLITHO FOR MAY 2008

STREET LAMPS

There are two duds in Rampton Road close to the allotments and the last one in Oakington Road going out of the village.

But we also have a new feature: street lights that are on during the day. Number 10 is one in Rampton Road and another is 36 in the High Street.

Shop Accessibility

Although the campaign for disabled and wheel-chair access to Cottenham's shops is only just starting, the first target, the Greengrocers, has installed a very nice dark wooden ramp which is just what is needed.

Dog Mess between Tenison Manor and High Street

I was accosted in the Co-Op by a local resident who complained about the dog mess in the walkway between Tenison Manor and the High Street. There is a problem particularly near the doctor's fence. I wonder whether CPC

could install a dog mess bin on the lamp post opposite and against the Salvation Army wall. Perhaps Councillor Mudd could advise.

Local elections

Congratulations to councillor Simon Edwards on his re-election.
